WORK EXPERIENCE

Programmer Analyst

COGNIZANT TECHNOLOGY SOLUTIONS - July 2014 to April 2016

Anthem Health Care Inc. - Call Care Browser Rewrite Module (ASP.NET MVC 4, C#, HTML5, CSS, JavaScript, JQuery, XML, JSON, SQL)

- Analyzed the client's requirements, developed Business Requirements Documents and proofs of concepts prior to the development phase.
- Developed the Call Care Browser web application for Anthem using .NET MVC 4.0 framework in Waterfall SDLC methodology.
- Developed Microsoft Unit Testing projects for performing Unit Testing on the developed code.

LexisNexis Application Shared Services - Renderer Module (ASP.NET Web API, C#, N Unit Testing Framework, Windows Forms

Application, Windows Service, Oracle)

- Developed a .NET Web API application to receive and filter the HTTP requests received in the web application.
- Developed C# code using Aspose file format APIs to render documents in various file formats for the users to email, print and download from the Lexis Advance web application.
- Developed, tested and deployed a Windows Service based tool named Test Service to automate the Unit Testing using FileSystemWatcher concept.
- Developed a Windows Forms application named Renderer Assist to perform on-demand functionality testing on the module and implemented Windows Task Scheduler in the tool to facilitate scheduled functionality testing.
