

Subina Balakrishnan

Programmer Analyst

Chandler, AZ - Email me on Indeed: indeed.com/r/Subina-Balakrishnan/0d3872cd94061aa1

- A web developer with 4.7 years of experience in front end development.
- Created scalable and easily maintainable UI using HTML5, CSS3, JavaScript, jQuery, pre-processor languages and responsive web design architectures. Also have a beginner level experience with Angular JS.
- Developed and implemented reusable modules as per the client's requirements which was also accepted as a standard and used as a library for further development in the projects.
- Good experience working in RAD and Agile (Scrum) methodologies.
- Good analysis, troubleshooting and team building skills.
- A team player with good communication skills both verbal and written.
- Have experience working alongside different teams to roll out deliverables on time.
- Rated the "Star of the month" on the performance evaluation process in Cognizant Technology Solutions for showing exceptional call of duty in a project in spite of having a late entry into the team and delivering the project on time and in good standards.

Authorized to work in the US for any employer

WORK EXPERIENCE

Programmer Analyst

Cognizant Technology Solutions - Kolkata, West Bengal - January 2015 to September 2016

Kolkata, India

Projects TransCelerate Biopharma, RSA Johnson & RSA Sigma+ Redesign (RSA Canada), AIMCO, Papa John's, British Airways.

Position Programmer Analyst

Duration January, 2015 to September, 2016

TransCelerate BioPharma Inc. is a non-profit organization with membership representation from 19 major pharmaceutical companies. The project involved developing a subscription-based platform that will transform the way clinical sites collaborate with pharmaceutical companies on clinical trials.

RSA Canada is a leading Canadian general insurer providing home, auto, business, marine and travel insurance products. RSA Johnson and RSA Sigma are 2 projects under RSA Canada. RSA Johnson involved revamping an existing website while RSA Sigma involved building a new one.

AIMCO is a USA based operator of apartment communities and the project involved revamping of their existing website. As per their requirement the site had to be partially responsive at the same time leverage the already existing codes as well.

Papa John's is an American Restaurant Company. The project involved developing a new fully responsive website to promote the game of baseball.

British Airways desired to have a new look for their existing website with a constraint as not to restructure the existing information flow just to avoid inconvenience of their customers who are accustomed to their existing application.

As a UI developer

- Lead the UI team (for TransCelerate Biopharma).
- Developed applications using HTML5, CSS3, JavaScript, jQuery, RWD framework like Twitter Bootstrap, Foundation, SASS, libraries like Bourbon and angular JS at the beginner level.
- Responsible for developing modules and other essential UI related activities in the project.
- Connected with all the teams involved in the project and made sure that the requirements and the deliverables are in sync.
- Fixed defects and coordinated with the testing team to verify the solution.
- Got all prototype related queries clarified by the Business Analysts.
- Responsible for the quality control of the deliverables.
- Ensured maintenance of the standards of the deliverables and kept the team in sync with the standards followed and maintained.

2. PK Web Solutions, Kolkata, India

UI Developer

PK Web Solutions - Kolkata, West Bengal - November 2014 to December 2014

Trainer Kites is a company all into the Kiteboarding industry. The project focused on building a website wherein the company could help customers to learn safe kite surfing and provide the best gear at a quality price.

As a UI developer

- Developed site using HTML5, CSS3, JQuery and JavaScript, Twitter Bootstrap and WordPress.

3. Itobuz Technologies Pvt Ltd., Kolkata, India

Web Developer

Itobuz Technologies Pvt Ltd - Kolkata, West Bengal - February 2013 to September 2014

Kolkata, India

Projects Prime News, Call Potential, Amarawati Tea, Epso Training, Tekapomoonlight, Bramley Well Being, Yoga with Divya

Position Web Developer

Duration February, 2013 to September, 2014

Prime News was an online news and magazine template intended to be sold online through Themeforest.

Call Potential, Amarawati Tea, Epso Training are all WordPress based projects undertaken as modules of a single venture.

Tekapomoonlight, Bramley Well Being, Yoga with Divya are again all different modules of a single venture i.e., developing sites for Yoga and other such practitioners with specifications about their style and points of access.

As a Web Developer

- Developed template using HTML5, CSS3, LESS, SASS, jQuery, Responsive Web Design (RWD) architecture (using Twitter Bootstrap), WordPress and MySQL.

- Interacted with the client to understand and accommodate their requirements in the process of development of the sites.

4. MaxBridge Solutions, Kolkata, India

Software Developer

MaxBridge Solutions - Kolkata, West Bengal - January 2012 to January 2013

Kolkata, India
