All-around worker with vast experience in the Information Technology and other industries.

## WORK EXPERIENCE

### Quality Inspector

Intrapac - Swedesboro, NJ - December 2010 to October 2011

certified that all items out of production were within specifications.

### Applications Developer

First Data Corp - May 2007 to February 2008

- Contributed to the maintenance of Card Management and Authorization (CMA) SQL Database.
- Coded SQL monthly fee program for First Data's clients.
- Researched and updated several SQL programs to accept Photo Cards.

### Programmer/Analyst

Fidelity Investments / Fiserv Securities - November 1996 to May 2006

- Used SQL for the following:
- Maintained the table of inactive accounts so clients could reference old accounts.
  - Updated the table of Required Mandatory Distribution for IRA accounts.

Used COBOL/ Tandem for the following:

- Wrote programs to translate EOY files into files relevant to Fidelity Tax-Reporting team.

- o Provided Tax-reporting support to Fidelity's Technology team.
- o Coordinated Tax Reporting and Systems Departments to support the merged companies' transactions.
- Redefined the business analysis, wrote system layout and coded the programs to assist Stock Management and the Bank of New York informing each other which bonds were to be restricted on a daily basis.
- Coded several programs to assist Operations in detecting money laundering, and huge wire transfers.
- Created more system space by purging inactive accounts and cleaning up the name and address information of non-resident aliens.
- Co-chaired a team to produce end-of-year documents like 1099's, 5498's, 2439's, and 1042's.

Used Tandem SCOBOL in Pathway Environment:

- Wrote screen program for Tax Reporting to enter securities that allocated dividends.

- Maintained the screen of Required Mandatory Distributions.
- Responsible for 1099 End-of-Year and Government Reporting, Compliance, Self-Directed IRA's.

### Quality Assurance Analyst

Electronic Payment Systems, Inc - September 1994 to November 1996

certified daily upgrades to the programs involving the Processor Intercept and Terminal Handler applications of the MAC switch. Programs were written in Tandem TAL. Other responsibilities included:

- Assumed both project leadership and team member roles in certifying new software being introduced to the customer database.

- Tested and certified updates to data transmission and new operating systems.
- Evaluated test tools.

### Programmer/Analyst

BHC Securities, Inc - November 1991 to September 1994

used Tandem COBOL for the following: • Maintained and enhanced the Securities Industry Software (SIS) system.

- Serviced the IRA system.
- Wrote several screen programs for IRA Department to soft-debit annual fees.
