## WORK EXPERIENCE

United Healthcare - November 2012 to Present

As the User Experience Designer in the Consumer Portal UX team, I work with business owners, business analysts and developers to design the user interaction of new site capabilities based on user research and business requirements. I support mobile and web based portals that help provide members, employers, brokers and healthcare providers with tools to manage healthcare benefits.

### Web Designer

Hewlett Packard - Palo Alto, CA - January 2006 to October 2012

As the Web Designer, I lead on quality management, metrics and technical integration. I design and prototype pages utilizing CSS and javascript for Hewlett Packard's award winning e-commerce site HPShopping.com. I am also the web designer for Compaq.com. I translate extensive usability testings to improve the user experience of the E-commerce sites.
