WORK EXPERIENCE

UX Designer

Resilinc - Milpitas, CA - June 2015 to Present

- Lead UI/UX. Do wireframe, user interface, color palette assets, icons and guideline for both mobile app and desktop.
- Do prototyping to use prototypes to demonstrate interaction and test.
- Create visual designs that effectively communicate product function.

Main Projects:

WAVZ. Led an UX design team of 3, redesigned the overall UX of the portal for all resilinc's customers and suppliers. Created a new UI guideline includes color palette, fonts, charts, new pattern library etc...

Resilinc app. Its a global supply chain event visualization, monitoring and risk analysis service. Worked with product managers to define the project scope, experience map, key flows, and interaction patterns. Gone through tons of interactions on refining the flows, navigation, interactions and visuals based on team's feedback and research suggestions. Designs originated from sketches, paper prototypes, wireframes, interface, to interaction mock up.

EventWatch Portal. It is designed for EventWatch team in Resilinc to monitor global supply chain disruptions 24/7. Redesigned the whole interaction, navigation and interface to make everyone know how to use with no tutorial.

Partner Relationship Team Portal. Created a new portal for PR team to do their tasks and for manager to track everyone's schedule.
