WORK EXPERIENCE

Quality Inspector

Baker Hughes Incorporated - Houston, TX - February 2014 to Present

Responsibilities

Onsite and source inspection of machined mechanical and composite assemblies using various micrometers, height gages and optical comparators.

Supplier evaluation through audits and score card spreadsheet.

Updating processes and work instructions to keep quality management system current and compliant.

Training new hires and less experienced inspectors.

QUALITY INSPECTOR/QUALITY ENGINEER

NATIONAL OILWELL VARCO - September 2008 to February 2014

Dimensional and visual inspection of electronic and mechanical assemblies (GENERATORS, MOTORS and EDDY CURRENT BRAKES) per ISO 9001 standard, using micrometers.

Identification of nonconformance and generation, management and follow up of nonconformance reports (NCRs), corrective action requests (CARs) and preventive action requests (PARs)

Scheduling and management of third party inspections per quality plan.

Planning, conduction and management of internal audits.

Managing third party calibration of measurement tools plant wide.

Annual review and updating of quality management system, work processes and work instructions.

Working with manufacturing shop supervisors to identify, correct and prevent nonconformance by analyzing NCR, CAR and PAR trends.
