## Software Engineer - PIC Business Systems

San Antonio, TX - Email me on Indeed: [indeed.com/r/John-Staudt/d06b9fdb470eaba](https://www.indeed.com/r/John-Staudt/d06b9fdb470eaba)

### WORK EXPERIENCE

#### Software Engineer

PIC Business Systems - San Antonio, TX - June 2015 to Present

Work as part of a small team to create browser-based e-commerce software. In the past year I've worked closely with representatives from Hunter Douglas (multi-national corporation that manufactures and sells window coverings), enhancing and debugging their Direct Connect web application which offers pricing, ordering, and scheduling of installation for its vendors, as well as many other features.

#### Freelance Web Developer

- September 2012 to Present

I just finished a project with Laravel and Vue.js that will allow users to upload csv/xlsx files containing addresses and other data and

convert them to interactive maps. I've worked for local startup Cue Tutor, whose site was designed to allow seamless scheduling of appointments and payments for parents and tutors, and developed a site with some friends, MyLocalBeer, created to connect patrons with locally brewed beers.

#### System Developer

Accenture Federal Services - San Antonio, TX - January 2015 to June 2015

Associate: Developed applications for the ServiceNow SaaS platform that services federal agencies such as the IRS, USDA, and the USPS. I also attended and completed the Java boot camp for new Accenture employees, which entailed presenting an application built with Spring (Java MVC framework), and passing a timed exam.

#### Composition Instructor

Southwest High School - San Antonio, TX - August 2010 to June 2014

Designed and delivered instruction preparing students for the Advanced Placement exam in English Language and Composition. Through constant re-evaluation of curriculum and approach, we were able to bring the passing rate up from 5% to 42 % in 2013.

### EDUCATION

University of St. Thomas - Houston, TX  
December 2014
