WORK EXPERIENCE

Game creator

Independent development - Crestview, FL - January 2017 to Present

I build and design mobile and desktop games for myself and for experience in publishing and maintaining living work examples.

Asembler

Northrup grumman - February 2016 to September 2016

Built wire harnesses and power distribution boxes for military contracts. Used knowledge of soldering, reading blueprints and electrical testing during the construction process.

Junior Agent

iQor - September 2015 to December 2015

Helped customers who called in with any trouble that arose from the credit application process using multiple programs while maintaining a calm cheerful and helpful demeanor over the phone.

QA Tester

Digital Dream Forge - May 2015 to July 2015

Tested and checked the quality of software. Wrote bug reports and communicated with customer support and the software developers to reduce the number and severity of bugs in the software.

Junior Agent

iQor - November 2014 to May 2015

Helped customers who called in with any trouble that arose from the credit application process using multiple programs while maintaining a calm cheerful and helpful demeanor over the phone.

Student Assistant

Collins College - May 2012 to May 2013

Duties included: helping other students with difficulties in a variety of subjects ranging from computer programming to english composition, taking notes for students with impairments and helping with the student engagement efforts of Student Services.

EDUCATION

Bachelor's

Collins College

SKILLS

Microsoft Office (10+ years), Windows (10+ years), Unity 3D game engine (3 years)
