## Q2ebanking - Software Developer

Austin, TX - Email me on Indeed: [indeed.com/r/Ashley-Stone/9ee16d4b49abddfb](https://www.indeed.com/r/Ashley-Stone/9ee16d4b49abddfb)

Software developer with 3 years of experience in a data analytics role. Known for excellent verbal and written communication skills. While working as a developer I interfaced directly with customers and other internal teams to gather requirements, explain technical details and define scope of projects. Easily able to turn a customer's needs into technical requirements. Authorized to work in the US for any employer

### WORK EXPERIENCE

#### Software Developer

Q2ebanking - Austin, TX - September 2014 to Present

Scripted custom data extractions and complex reports using T-SQL and PowerShell per customer's needs.

- Experience writing T-SQL joins, stored procedures, views, pivot tables, and database patches.
- Wrote automated processes to send several daily data sets to Q2's Risk and Fraud department.
- Created graphs to represent server performance on any given day, for any server in our data center using d3.js.
- Optimized queries for efficient performance.
- Lead daily scrum and identified blockers for a team of 11 software developers.
- Quoted hourly efforts needed from my team for prospective projects and reports.
- Reviewed and approved Statements of Work from Business Analysts.
- Frequently worked directly with customers to identify requirements, file formats and structures, and explanation of account linking.
- Communicated directly with customers until the end of a project to ensure their satisfaction.
- Experience working with JIRA and Salesforce in an Agile environment.
- PowerShell, C#, JavaScript, Python, XML, HTML, CSS, T-SQL, SQL Server Management Studio, Postgres, Visual Studio, Jira, Scrum, Agile Development, Salesforce
