

# Dan Martin

## Software Developer

Portland, OR - Email me on Indeed: [indeed.com/r/Dan-Martin/69dab0fd22be2c11](https://www.indeed.com/r/Dan-Martin/69dab0fd22be2c11)

I have a tremendous passion for my craft working with PHP / javascript and any other technology I can get my hands on.

Authorized to work in the US for any employer

### WORK EXPERIENCE

#### Software Application Developer

Geiger - Lewiston, ME - February 2013 to Present

##### Responsibilities

Primary duties included using best standards and practices creating solutions for enhancements, known bugs, and determining future needs in a variety of business applications.

Using Laravel, PHP, MySQL, jQuery and Angular JS to serve and save content for websites.

#### Web Developer

The Animal House - Damariscotta, ME - March 2003 to January 2013

- Used Javascript (jQuery, Backbone.js, and Underscore.js) to build front-end client interaction, dynamic interfaces, and visual animations.
- Programmed all code by hand to be extremely modular and lightweight. Utilized Object-Oriented Programming and Model View Controller methodology.
- Used PHP, MySQL, and AJAX (w/ JSON) to serve and save content for websites
- Used HTML5 to create flexible and semantic website markup.
- Used SASS & Compass preprocessing to create pixel-perfect CSS3 website designs.

#### Web Developer

Hollis Interactive - Nashua, NH - February 2002 to March 2003

Creation and maintenance of many Web sites and applications for corporate, non-profit and other clients.

Performed the full spectrum of Web-related tasks, including rapid prototyping, design and layout, graphics creation and optimization, server-side programming (primarily PHP), MySQL databases, AJAX interactivity, standards-compliant XHTML and CSS, testing, training, hosting, security, traffic generation and ongoing updates.

- Creation of custom branded content management system to allow for client entries to be validated to W3C standard specifications, with reduced markup.
- Used PHP, MySQL, HTML4, and CSS2 to create online course websites

##### Other Tertiary Skills

WordPress, Joomla, Drupal, YouTube Data API, Flickr API, Campaign Monitor API, Twitter API, Google Maps API, Google Geocoding API. Adobe & Office Suite, Media Compression, Website Accessibility Initiative (WAI), Web Hosting Manager (WHM) + cPanel, Windows, OS X.

#### Web Applications Developer

The Daily News - Longview, WA - September 1999 to February 2002

#### Responsibilities

Created website [www.tdn.com](http://www.tdn.com), and content management system to allow daily updates for newsroom and copy desk. Built intranet system for in-house communication, and filing systems.

#### Accomplishments

Created a content management system to replace existing static html files website.

Utilized Cold Fusion for first iteration of website and CMS

Utilized PHP for second iteration of website and CMS

#### Skills Used

Used ASP, Cold Fusion, PHP, MySQL, HTML, and CSS
