### WORK EXPERIENCE

#### GAME DEVELOPER IN TRAINING

Code Monkeys - Newberg, OR - November 2015 to Present

- Learning Unity and in turn C# both of which have really been stretching me as a programmer.
- Many of the concepts I've learned in this environment can only be experienced in a highly creative arena like game development.

#### LEAD SOFTWARE ENGINEER (MOBILE & WEB APPLICATIONS)

Code Monkeys - Newberg, OR - July 2015 to Present

- I have learned a great deal about effectively communicating with clients, co-workers, management, and other development teams.
- Have adapted to collaborating with multiple teams to produce a single product.
- The consistency and quality in which I write code and communicate with others has sky rocketed since taking this position.

#### FOUNDER & WRITER

I have a blog at [blog.tylerbuchea.com](http://blog.tylerbuchea.com) where I regularly write about new technologies that I encounter. The blog forces me to verbalize my thoughts, which reinforces concepts and helps me better retain what I have learned.

#### DIGITAL STRATEGIST

Tyler Buchea LLC - Portland, OR - January 2012 to Present

- Release products to the iOS and Android app stores. My app WooProducts has an actual user base and I still actively maintain it.
- Try to niche down and create productized services in which I can create processes for and in turn automate. Productized services such as: Tyler On Tap
- Learn a lot about marketing, branding, cold outreach, sales, etc.

I've attached a "Success Tracker" that I recently filled out at the company I work for. I was skeptical at first but found it to be very useful in helping me hash out where I was and where I want to be. Give it a read to get an up to date feel for where I'm at in my journey as an engineer.
