

Gaurangi Senad

Web Designer - Shriji Jewelry & Clothing, Seattle

Sammamish, WA - Email me on Indeed: [indeed.com/r/Gaurangi-Senad/64a8cd32bd72677c](https://www.indeed.com/r/Gaurangi-Senad/64a8cd32bd72677c)

I did my Master's in Computer Management and Bachelor's in Science when I was in India. And recently completed Professional Certification course in Web Design (June 2017).

I am looking to build my career in Web Design / Graphic Design and looking for Entry Level or Apprentice or Junior Web / Graphic Designer positions. I got good exposure to popular web designing & hosting platforms like WordPress, WIX, BlueHost from the volunteer jobs I took up with Non-Profit Organizations & small local business while doing the Web Design course. Also, I am familiar with Object Oriented Programming concepts and programming languages like C, C# and basics of .NET Framework from my academic studies.

In addition to the technical skills, I possess comprehensive problem-solving ability, willingness to learn with patience & positive attitude.

Authorized to work in the US for any employer

WORK EXPERIENCE

Web Designer

Shriji Jewelry & Clothing, Seattle - June 2017 to Present

Site: <http://blogs.iitarch.org/>

Project Details:

IASA IT Architecture works on recognizing & promoting the art & science of IT Architecture. I am working on adding the Blog site with the similar theme as the main website in WordPress.

Some highlights of the work:

- > Created Web Graphics, Site Pages Wireframes & Mockups in Photoshop CC.
- > Customized the WordPress default theme to match the parent website

Redesign & Enhance the Existing Website

Web Designer

Shriji Jewelry & Clothing, Seattle - April 2017 to Present

Duration: April 2017 - Present

Site: <http://shrijionlineshop.com/catalog/>

Project Details:

Shriji is a retail business store in Seattle which doesn't have any Web-Site yet. Business owner like to go online with their product catalog to increase the business reach and also interested in enabling the e-commerce sometime later.

Some highlights of the work:

- > Created Web Graphics, Site Pages Wireframes & Mockups in Photoshop CC
- > Built the site from scratch using HTML5, CSS3, JavaScript & jQuery
- > Made Product List & Product Info Pages Dynamic with AJAX call to load page content from JSON
- > Made site Fully responsive, mobile friendly
- > Site meets all web accessibility requirements & search engine optimization

- Registered the site domain & hosted in BlueHost
- Addition of eCommerce feature is in progress
