WORK EXPERIENCE

Software Developer

MEDITECH - Foxborough, MA - 2011 to 2017

Developed and supported applications for migrating customer data to upgraded platforms. Managed full life-cycle software development. Successfully utilized five software languages to design and develop data migration tools. Created functional and technical specifications documenting all development projects. Provided in-depth technical training of migration tools to the implementation staff for use on customer sites.

Key Accomplishments:

- Re-designed and developed a highly scalable system used across several applications for migrating data from one software platform to another.
- Appointed Subversion Pipeline Mentor to the Upgrade Tools Team after demonstrating proficiency of Apache Subversion (SVN) software.

EDUCATION

Bachelor of Science in Game Development and Simulation Programming

New England Institute of Technology - East Greenwich, RI
2011

SKILLS

APACHE (6 years), DATA MIGRATION (6 years), SOFTWARE DEVELOPMENT (6 years), STRUCTURED SOFTWARE (6 years), Subversion (6 years)

AWARDS

Best of Tech

March 2011

Each year, the college's Office of Teaching and Learning recognizes outstanding students from each New England Tech technology program for their academic and personal achievements.
