I have been designing web sites for over 16 years. My strong work ethic has helped me provide excellent customer service and deliver designs within a timely manner. I have worked cross-functionally with other groups such as, SEO, content writers, developers, Account Managers, Project Managers and Sales Consultants.

Authorized to work in the US for any employer

### WORK EXPERIENCE

#### Senior Web Designer

FindLaw, A Thomson Reuters Business - Eagan, MN - January 2001 to January 2016

As a Senior Web Designer, I worked very closely with upset clients to regain their trust in our company. This involved several calls with the client and working with SEO, content writers and development to ensure the design was built correctly and performed well. I also mentored a small group of designers to ensure quality and best practices were met. This involved monthly one-on-one's, design and call reviews and I was their point person for any questions.

#### Web Designer

FindLaw, A Thomson Reuters Business - Eagan, MN - January 2000 to May 2001

As a Web Designer, I conducted several interviews with clients to ascertain web site marketing goals and strategies. I created design prototypes and presented them to clients to explain the full concept and functionality of their future web site.
