Seeking a full-time position as a Software Engineer, System Engineer or Web Developer position.

WORK EXPERIENCE

Quality Inspector

Rockwell Collins - Melbourne, FL - 2011 to Present

Responsibility inspects for defects, errors, variation and evaluates manufacturing processes and procedures following Rockwell Collins Quality Management Sys/procedures and Workmanship Standards

- Evaluates products, processes and procedures through the use of schematic and drawings such as PDM Web Query, SAP, X-Ray machine, AOI inspection Machine.
- Successfully communicated with the customer to ensure a 100% customer satisfaction

Production Specialist

Rockwell Collins - 2006 to 2011

Provided the framework for data analysis in identifying problems on defective components.

- Read worksheets and wiring diagrams, received verbal instructions and followed sample boards.
- Determined assembly duties and selected components, such as transistors, resistors, relays, capacitors and integrated circuits.
- Twisted, bent, trimmed, stripped and filed wire leads of components.
- Provided assistance to the team as necessary to ensure Rockwell Collins project milestones were met.
- My performance had exceeded company expectations in the manner in which products were moved, stocked, and analyzed.
