solutions. Proficient knowledge in Python, Microsoft Azure, Data Visualization and Business Strategies.

Willing to relocate: Anywhere

Authorized to work in the US for any employer

### WORK EXPERIENCE

#### Jr. Data Scientist Intern

Mcgrath RentCorp - Livermore, CA - January 2017 to Present

Conceptualized a cloud-based document management system (DMS) using Django framework.

Working on Machine Learning with Python where documents are trained to be classified. Using supervised machine learning for auto-populating meta-data for each document in the database.

Managing the deployment of DMS on Microsoft Azure while maintaining tools for deployment, monitoring, troubleshooting and resolving issues in the development, test and production environments.

#### Data Analyst

Hydropower - Bangalore, Karnataka - September 2012 to June 2015

Performed market analysis, generated reports for implementing marketing strategies, thereby increasing customer acquisition by 30%.

Persuaded senior management on introducing innovative business strategies and provided recommendations using dashboards summarizing the impact on business based on recommendation and action.

Extracted, interpreted and analyzed data to identify key metrics and transform raw data into meaningful, actionable information which increased sales by 22%.

### EDUCATION

#### Master of Science in Information Systems in Information Systems

Santa Clara University, Leavey School of Business

June 2017
