## WORK EXPERIENCE

### Quality Inspector

Donaldson Co Inc - Stevens Point, WI - April 2016 to January 2017

- Plan, design, employ and train employees on new enhancements made to the Data Collection Software
- Troubleshoot inspection devices that interact with the in-house Data Collection Software
- Administer, enhance, and continually make improvements to the Data Collection Software
- Query the software database to compile reports based on management's needs
- Monitor any violations intercepted by Data Collection Software and effectively correct them
- Modify CMM programs to meet operating standards
- Document newly developed Standard Operating Procedures

### Warehouse Associate

Genuine Parts - Stevens Point, WI - April 2013 to April 2016

- Maintained a clean and organized floor per OSHA requirements
- Replenishment of inventory while ensuring quantity received is accurate
- Investigated overages and or shortages from shipment received to maintain inventory accuracy
- Inventory Reconciliation on accounts in Returns Department to credit stores in a timely manner
- Verified clerical computations against physical count of stock and adjusts errors in computation or count to achieve

98 percent inventory accuracy on last quarterly cycle count

- Improved on order picking by 2-3 percent from revamping troubled areas in the distribution center

### Manager Trainee

Menards - Plover, WI - June 2012 to January 2013

Passed all competency exams including department maintenance, computer systems training, selling, merchandising,

reports, inventory maintenance, and front end training

- Implemented excellent customer service by ensuring accuracy of inventory levels and maintaining thorough knowledge of home improvement products to meet personal sales goals of \$1500 per shift
- Excelled in merchandising by staging products to make sure they look appealing; built displays from blueprints issued by the corporate office
