Bryce Walther

Marlton, NJ - Email me on Indeed: indeed.com/r/Bryce-Walther/8090ae197cbf1545

Passionate software engineer looking to move into developing backends for large, scalable systems.
Willing to relocate: Anywhere
Authorized to work in the US for any employer

WORK EXPERIENCE

Software Developer

Vertical Screen, Inc   -   Mount Laurel, NJ - August 2016 to Present

Designed and implemented custom solutions for Fortune 500 clients that contribute several million dollars to
Vertical Screen's bottom line (TFS, C#, Java, JSP, SQL)
Designed and developed a bulk database update tool for operations to use which saves 80 developer hours
per month (C#, WPF, MVVM, XAML, DI, Entity Framework, SQL)

Chief Technology Officer (CTO)

Accordion Games   -   St. Louis, MO - June 2015 to Present

Lead development of a 2D puzzle game across a geographically disperse development team for a client
Defined application architecture, tools, and workflows to allow rapid iteration and releases (Teamcity, Visual
Studio Team Services, git, Unity3D, Dependency Injection, Agile)
Developed a flexible level editor to allow the client to rapidly prototype changes without developer intervention

EDUCATION

A.A.S. in Software Developer

Fox Valley Technical College   -   Appleton, WI
August 2014 to December 2016

SKILLS

.NET (3 years), C# (3 years), SQL (3 years), Asp.Net (2 years)
