Corey Swickline

Software Engineer - Truefit Solutions

Monroeville, PA - Email me on Indeed: indeed.com/r/Corey-Swickline/6f9492c3fe229931

WORK EXPERIENCE

Software Engineer

Truefit Solutions - March 2016 to Present

Currently developing a student monitoring mobile application with React Native and a Ruby on Rails administration
site and backend
* Participated in the development of a virus scanning workflow for an existing healthcare application
* Enhanced an existing KnockoutJS website for coordinating actions for stroke victims
* Developed an AngularJS application for contract consolidation offering real time auctioning capabilities
* Created an E-commerce website in ReactJS using a PencilBlue content management system for a local bakery
* Participated in the conversion of an existing Visual Basic 6 long term care application to Windows Presentation
Foundation(WPF) with Entity Framework

Production Support/Software Developer

Chorus Call - December 2012 to March 2015

* Coordinated all development tasks for 14 local and international offices
* Responsible for enhancing Java based web applications based on customer request and business needs
* Created standalone C# desktop software application to automate setup and configuration of new user PCs
* Created C# console application to update software configuration files for all employee PCs
* Enhanced C# Outlook plugin to aid customers in creating customized meeting invitations
* Lead developer on Ruby based visual dashboard of company statics to be used for marketing
* Created automated nightly backup scripts for approximately 40 servers
* Responsible for all virtual server creation and maintenance

Production Support Analyst

Direct Energy Business - July 2011 to December 2012

* Developed C# web applications for use in calculating customer price and contract documents
* Developed automation tools for the support group to increase response and resolution time
* Lead developer of new energy products to satisfy the needs of the business and customers
* Primary support contact for Direct Energy Business pricing group
* Met with Pricing managers to determine ways to improve current processes and procedures
* Configured monitoring software and developed reports for Key Performance Indicators
