WORK EXPERIENCE

Software Developer
Entertainment Partners   -   Los Angeles, CA - 2015 to 2017

Developed in Angular.js for our department admin web app, pulling data from SQL Server using the NHibernate ORM and rendering to view.
● Created front end views using Javascript and JQuery and ASP.NET for our mobile app, allowing TV and movie crew members
to create and save timecards, incorporating payroll logic for proper error handling and a verification feature for department
admins to confirm, deny or modify timecards.

Software Developer
Ease Entertainment   -   Los Angeles, CA - 2013 to 2015

Contributed across the stack on a Javascript/ASP.NET timecard application for use by TV industry crew members.
● Created SQL Server stored procedures for the Payroll and Hours to Gross apps to manage users and to create relational
queries to render data to Windows Forms.

Software Developer
Spark Networks   -   Los Angeles, CA - 2011 to 2013

Architected C# test automation framework using Selenium 2.0 prioritizing modularity and creating APIs for QA Engineers on other teams to easily create tests.
● Created and maintained automated tests across all verticals.
● Used Javascript and C# for an in house Admin Tools app, developing new features and fixing bugs.

Software Developer in Test
MySpace, Inc   -   Beverly Hills, CA - 2008 to 2011

SDET
● Designed and developed a Quick test Pro framework that standardized our daily test reporting for all teams.
● Developed for the QA Automation team, creating and fixing test cases for all verticals using C# with WatiN and NUnit.
● Responsible for creating and running unit tests, communicating with the team potential defects on our stage builds.

EDUCATION

B.A. in Math / Computer Science
University of California   -   San Diego, CA
1997 to 2002

SKILLS

ASP (4 years), ASP.NET (4 years), C# (5 years), Javascript (6 years), MS ASP (4 years)
