• Involved in projects for Integrating Automobile Inspection Providers to the system (AIM, Data Scan).

• Worked in Integrations projects with AutoIMS and AMS vehicle repositories.

Software developer

UST Global - Thiruvananthapuram, Kerala - March 2014 to December 2014

Location: Trivandrum, Kerala, India.

Project: TDD Mobile Project.
Software developer

• Developed new application for exposing the existing ADESA bidding engine as REST services which is used for the mobile application development.
• Worked in all phases of development, unit testing and documentation of the services as per the mobile application requirements.
• Used Spring 4.1.2 for the service layer development.
• Used EJB 2.0 remote method invocation for interacting the mobile service with bidding engine.
• Used Soap UI and Advanced rest client plugin for testing and validating the RESTful services.
• Involved in the architecture and development of mobile Push notifications.

EDUCATION

Bachelor of Technology in Technology

(ECE) - University College of Engineering - Thiruvananthapuram, Kerala

Kerala University

SKILLS

EJB (2 years), Remote Method Invocation (2 years), RMI (2 years), SOAP (2 years), APACHE (1 year)

ADDITIONAL INFORMATION

• Overall 4.5 years of experience in development of Web & Enterprise applications using JAVA and J2EE

Technologies.

• Diverse experience utilizing Java tools in business, Web, and client-server environments including Java Platform, Enterprise Edition (Java EE), Enterprise Java Bean (EJB), Java Server Pages (JSP), Java Servlets (including JNDI), Struts, and Java database Connectivity (JDBC) technologies.

• Extensively worked on Core Java, J2EE (JSP, SERVLETS, JNDI, Java Beans, JDBC, Spring, JPA, Hibernate, JSF
1.1).

• Working Knowledge and experience of Restful and SOAP Web Services.

• Used EJB 2.0 for remote method invocation purpose.

• Extensive experience and knowledge in Spring framework, good understanding on the concepts Dependency Injection

• Fluid understanding of multiple programming languages JavaScript, HTML, and XML.

• Experience with O-R-M services like JPA and HIBERNATE framework.

• Experience with project building using ANT and Jenkins.

• Experience in writing Schedulers using Java Quartz.

• Experience with developing reports using Jasper.

• Extensive working knowledge with application servers like IBM WebSphere servers.

• Knowledge in Database Servers Like Oracle 10g/11g

• Expertise in using source control tools like IBM Clear Case, CVS, and SVN.

• IDE's worked on include IBM RAD 7.5 (Rational Application Developer), Eclipse.

• Excellent communications skills. Adept at building strong working relationships with coworkers and management.

• Talented problem solver able to think "outside the box."
• Proven background leading teams in stressful, deadline-oriented environments.

Languages: Java, JavaScript, Java Beans, JSP, Oracle 10g/11g, HTML, XML, PL/SQL.

Frameworks \ API's: JSF, J2EE, Spring, Java Mail, Servlets, EJB, JMS, Java Naming and Directory Interface (JNDI), Push Notifications, Quartz Scheduler 1.6, log4J, Jenkins, Web services (SOAP and RESTful), Apache Lucene Search Engine 2.4

Software: Eclipse, RAD 7.5, Clear Case, Clear Quest, Toad, SQL Developer, Soap UI, iReport.

Databases: Oracle 10g/11g.

Servers: WebSphere Application Server, Tomcat Web Server.
