WORK EXPERIENCE

Project Manager for Board Game Developer Tools

UC Irvine - February 2015 to March 2015

Built a SQLite database that would contain usernames and passwords of users.
● Coded a login screen, client, and game board using pygame python graphics library.
● Managed and collaborated with another team to organize and test the developer tools.
● Learned great team working, communication, and time management skills.

EDUCATION

B.S. in Software Engineering

University of California - Irvine, CA
September 2016
